

# SCENOPLUS

As an internationally renowned leader in performing arts and entertainment design, Scéno Plus provides a complete range of integrated services that combines overflowing creativity and operational efficiency in the development of the most innovative and ambitious projects. This comprehensive approach enables us to develop concepts in which the design features and technical components of facilities are harmoniously integrated with the architectural layout of spaces.

Our Architects and Designers create venues specially designed to welcome artists and spectators in the most enjoyable spaces; places that are both functional and inviting, dedicated to Culture and Entertainment. From simple architectural details to iconic buildings, they work every day to respect the initial vision to achieve results that exceed expectations.

*Sceno Plus recently broadens his horizons by starting events and shows production through his new division Scéno Plus Production. Combining Quebec creative talent to its expertise and ability to undertake large scale projects, Scéno Plus Production propels itself beyond known limits by developing custom creations for its clients around the world.*
