

REVEL BARS AND TRANSITION AREAS

ATLANTIC CITY, NEW JERSEY, USA

Sceno Plus led the design of all the entertainment spaces and transition areas of Revel, a 2.4 billion US\$ resort in Atlantic City. The Montreal-based firm designed, amongst others, an high rollers dedicated lounge, two trendy bars and a passage with an incredible view on the city.

Ultra Lounge

The Ultra Lounge is a high-roller gaming area connected to the casino. It welcomes guest in a luxurious environment designed with noble finishes and a beautiful organic ceiling that gives a warm ambiance to the space. More private, this charming space has been designed for distinguished players but is still very accessible to everyone to have a drink at the bar.

Dining Enclave

The Dining Enclave is a luxurious lobby designed to welcome Revel's visitors and direct them to two high-end restaurants as well as giving guests a direct entry to Revel Beach. With glamorous stairs, high ceiling and magnificent view on the ocean, this space is a strategic meeting point to get together with friends before starting the night at Revel.

Flirt and Tequila Bars

Located in the middle of the casino, the Flirt is a vibrant place connected to a dynamic show bar. It is an exciting bar to have a drink and interact with fellow guests just aside the casino floor. With all the action provided with gaming activities, it is still a great place to meet with people and enjoy a warm and glamorous interior design.

The Tequila is a vibrant bar integrated at the second level of the show-bar. This bar is incredibly attractive and shines with its masculine and modern look. Acting as a small sport bar, the Tequila offers all the elements to bring the sport atmosphere to another level.

City way

Connected to self-parking area on the North side of the resort, City Way is a charming lobby that gives you access to a variety of amenities. As it blends into the Revelry Casino, this entrance also leads the way to two attractive restaurants and the retail corridor. Facing Atlantic City, huge windows bring in a lot of natural light. Three immense frames (16 by 37 feet) are featured near the windows to receive artistic projections at nighttime.
